PROFESSIONAL SUMMARY

Passionate data enthusiast with strong skills in SQL, Excel, Power BI, and Python. Currently pursuing a data science certification at Newton School, enhancing abilities in data collection, processing, analysis, and visualization. Eager to apply analytical skills to real-world challenges and seeking an opportunity to showcase my skills and contribute to an innovative organization.

EDUCATION

Bachelor of Engineering (Electrical Engineering) Marwadi College Rajkot	2016 - 2019 Grade: 6.32/10.0
Diploma Atmiya College Rajkot	2012 - 2015 Grade: 6.02/10.0
Matriculation (Class X) Dakshinamurti School	2011 - 2012 Grade: 50.0%

EXPERIENCE

Mis Executive Simpolo Tiles	January 2025 - October 2025 <i>Morbi</i>
---------------------------------------	---

- Analyzed **5,000+ procurement records** to identify trends and support **data-driven purchasing decisions**.
- Built **10+ automated reports and interactive dashboards** using **Excel and Power BI**, reducing manual reporting time by **30%**.
- Maintained **99% data accuracy** within **ERP systems**, ensuring reliable procurement and inventory reporting.
- Performed **data cleaning and transformation on 8,000+ rows of data** to generate actionable operational insights.
- Collaborated with **5+ cross-functional teams** (purchase, finance, warehouse) to improve procurement efficiency and reporting processes, improving reporting turnaround by **20%**.

Machine Operator Skaps Industries	January 2023 - December 2024 <i>MUNDRA</i>
---	---

- Operated **HEMA machinery** and supported smooth production of **500+ PET units per shift**.
- Monitored product quality and identified defects, helping maintain **98% quality compliance**.
- Troubleshoot mechanical issues and reduced machine downtime by **15% through quick fault identification**.
- Maintained **daily production records for 3+ units** and prepared reports using **Microsoft Excel**.
- Tracked production and quality data to support **operational monitoring and performance analysis**.

Engineer Anjani Udyog Pvt Ltd	December 2020 - January 2023 <i>MUNDRA</i>
---	---

- Operated and maintained **fiberglass manufacturing machinery**, supporting production of **1000+ units weekly**.
- Monitored product quality and ensured adherence to **standard manufacturing guidelines**.
- Performed troubleshooting and preventive maintenance, reducing operational downtime by **10–12%**.
- Maintained **production logs and maintenance documentation** using **Microsoft Excel**.
- Tracked production data and generated reports to support **process monitoring and management decisions**.

PROJECTS

Chinook Music Store Project - SQL (Github)	November 2024
---	---------------

- Analyzed Store’s sales data, revealing key insights on churn rates, customer behavior, and genre performance.
- Utilized advanced queries to facilitate churn reduction by 56% and strategies for customer retention and marketing.
- Delivered actionable business recommendations to boost sales and operational efficiency.
- Skill Used-SQL

Amazon E - Commerce Analysis Project	October 2024
---	--------------

- Utilized **MySQL** queries to clean and transform raw datasets by modifying data types, ensuring data quality and suitability for analysis and reporting.
- Extracted actionable business insights through optimized SQL queries involving filtering, aggregation, and joins across multiple tables.
- Utilized **Power BI** to preprocess and analyze raw data including sales data, customer behavior metrics, and operational data.
- Created interactive and insightful dashboards using Power BI to visualize key performance indicators (KPIs), trends, and patterns in Amazon’s ecommerce operations.
- Derived data-driven insights and recommendations to optimize performance, improve user experience, and drive sales growth.
- **Tools: MySQL, Power BI**

Zomato Restaurants Expansion- Excel (Github)	September 2024
---	----------------

- Ensured data accuracy and completeness by cleaning a 9K+ row dataset and applying Lookup functions (VLOOKUP/XLOOKUP) to populate missing country data.
- Designed a dashboard with date and country slicers, providing insights into restaurant openings per country and year, and distribution across price ranges.
- Analyzed market competition to suggest countries with lesser competition for new restaurants, using visualizations to justify recommendations.
- Provided insights on optimal cuisines, the impact of online delivery and table booking on ratings, and the correlation between cuisine pricing and feedback.
- Skills used - Microsoft Excel

CERTIFICATIONS

Professional Certificate Course In Data Science

Newton School

August 2024

- Pursuing a Data Science certification program, covering data analysis, machine learning, statistical modeling, and data visualization.
- Proficient in using key tools and technologies: SQL, Python, PowerBI, and spreadsheet applications.
- Applied statistical methodologies to derive actionable insights and enhance decision-making processes

SKILLS

Computer Language: SQL

Soft Skill: Communication Skills, Teamwork, Time management

Databases & Data Tools: Excel, MySQL, Power BI, Spreadsheet

Frameworks & Libraries: Microsoft Office
